EXPERIENCE

Codeworks | Boise, ID

Full-Stack Software Development Student | Feb 2021- April 2021

- Developed over 20 web-based applications within 13 weeks with over 520+ hours of programming experience
- Acquired hands-on experience with an array of object-oriented-programming languages and development frameworks utilizing and designing RESTful API's, Wireframing, and MVC/MVVM methods to successfully complete individual and teamwork based projects
- Experience utilizing Auth0, MongoDB, MySQL, and GitHub to create more advanced and complex web-based applications
- Learned and ultimately implemented Agile/SCRUM methodologies in a team of 5 developers over a sprint of 2 weeks; acting as the Product Owner

Key Web-Based Applications:

- 710 - Personal Automotive Management Application
 - Application that allows for personal fleet management providing the user the ability to retain all information for vehicle maintenance, visualization of overall fleet health, record receipts, and submit photos within one simple interface
 - Technologies Used - Vue.js 3, HTML, CSS, Animate.CSS, MongoDB, JavaScript, Firebase, Auth0, Bootstrap, Node.js
 - Application created within a group of 5 software developers, utilizing Agile/SCRUM Methodologies - personally fulfilling the role of Back-end Developer, Front-end Developer, and Product Owner

Enterprise Rent-A-Car | Boise, ID

Assistant Branch Manager | Dec 2019 - Jan 2021

- Managed a daily 130+ vehicle fleet ensuring individual vehicle health, upkeep, and maintenance for consistent rental processes, averaging the highest daily occupancy at 93.7%
- Promoted from Management Trainee to Management Assistant within first 6 months and then promoted a third time to Assistant Branch Manager within 3 months of previous promotion based on top overall performance
- Supported and lead a two-person operation for one of the largest Vehicle Rental locations in the Treasure Valley leveraging a consistent profit of \$51/Vehicle and \$245 weekly operating profit
- Drove existing and established new long-lasting relationships with corporate accounts including Larry H Miller Collision, First Choice Collision - Boise, Franklin Auto Body, Power Engineers, among others, ensuring constant weekly and daily vehicle rentals

TEKsystems | Boise, ID

Technical Recruiter | Aug 2017 - Aug 2018

- Successful placements of 13 information technology professionals within contract, contract-to-hire, and direct hire positions for assigned business territory; Idaho, Montana, Washington, and Alaska
- Supported small, mid-size, and large enterprise business initiatives by providing highly highly detailed and proven staffing solutions, full-project outsourcing needs, and enterprise-wide training ramp-ups
- Full lifecycle recruiting from business development, business, qualification, sourcing strategy, qualifying candidates, presentation of candidates to Directors and Senior level management, and maintained consistent communication between all stakeholders

- Developed proactive recruiting strategies to identify qualified candidates by using various networking tools including sponsoring and participating in local Information Technology user groups such as the following;
 - .Net User Group - Boise Chapter
 - Project Management Institute - Western Idaho Chapter
 - Business Intelligence Group - Boise Chapter
 - Tableau User Group - Boise Chapter
 - Idaho Virtual Reality Council
- Provided continuous deliberation and evaluation of candidates' strengths and weaknesses by performing phone and face-to-face interviews
- Performed and recorded over 200+ professional references for prospective candidates
- Negotiated fair market wages, benefits, and other terms and conditions of the employment contract with candidates
- Partnered with TEKsystems Sales Support to identify top accounts and target skill matches regarding specific business requests and needs
- Groomed relationships with business contracts, potential candidates, internal business advocates, and current contractors to gain industry knowledge, company insights, and obtain referrals
- Prospected and networked with potential consultants regarding employment opportunities in each local market, as well as assist in personal resume building

Dutch Bros. Coffee | Boise, ID

Event Coordinator | Sept 2016 - Aug 2017

- Managed a \$650k mobile coffee shop, overseeing all elements of event planning, business metrics, and personnel coordination
- Served and managed public and private client events averaging 500+ participants for charities, local businesses, and other community occasions
- Collaborated with community business partners in conjunction with company leadership to increase brand visibility, thereby tripling selling and sales upon assuming the Event Coordinator position

Key Accomplishments:

- Exceeded sales expectations by \$200k within my first 2 Quarters
- Slashed costs by \$15k annually by creating a simplistic, innovative solution for eight operational methods
- Promoted from Barista to Full-Time Event Coordinator within first three weeks
